

Better Start to Run

U.D.O.

Your constriction ain't no fiction
We'll tear you down the pain gets harder - you will see
Worlds colliding - faith is dying
Stop the stigma the enlightenment's begun

Cutting the wire
Keeping the truth
It's hire and fire
A nation let loose

You will face the truth you liar
A justice get to come
Out to claim our lost empire
Better start to run
We will gain our true desire
A justice get to come
Out to claim our lost empire
Better start to run

Our prediction means conviction
We will deny you setting fire to your reign
The rebellion like a stallion
We'll run you down like an inferno full of hate

Cutting the wire
Keeping the truth
It's hire and fire
A nation let loose

You will face the truth you liar
A justice get to come
Out to claim our lost empire
Better start to run
We will gain our true desire
A justice get to come
Out to claim our lost empire
Better start to run

Cutting the wire
Keeping the truth
It's hire and fire
A nation let loose

You will face the truth you liar
A justice get to come
Out to claim our lost empire
Better start to run
We will gain our true desire
A justice get to come
Out to claim our lost empire
Better start to run
