

# Beyond The End Of Time

U.D.O.

Time  
Is way beyond the last horizon  
Vain  
Like a moonrise on the sea  
Life  
You'd better value every hour  
Peace  
Just the way it's meant to be

Gone  
And cannot touch a single flower  
Dreams  
Always hidden from the eye  
Calm  
As you look up night's blue tower  
Hope  
Is a true unfading smile

Alone we stay, years moving on  
Alone we pray to carry on  
Beyond the end of time

Blessed  
I'm gonna taste eternal rivers  
Trust  
In this land of dark despair  
See  
How the glowing twilight shivers  
Graced  
To make that strange beyond deem fair

Dazed  
By creation's undenied perfection  
Feel  
Like a tender picture drawn  
Watch  
For a silver and a gold reflection  
They  
Make us view the stars of dawn

Where angels dwell in peace and love  
A blessing glare comes from above  
Beyond the end of time

Souls  
From a tomb's dark empty prison  
Free  
To kiss away a falling tear  
Here  
We shall rise as life has risen  
And I  
I'm gonna journey with no fear

Pain  
Is a constant void of blackness  
Cry  
And grieve for those we loved so dear

Long  
May be all those nights of sadness  
Safe  
With a dear friend close and near

The ones we love now rising high  
So far above beyond the sky  
Beyond the end of time

Dreams  
Of a not so distant future  
Still  
So deep within the blossoms burn  
Words  
Unwritten by a final stranger  
Joy  
In delight of a return

Alone the years still moving on  
And so we pray and carry on

Beyond the end of time  
Beyond the end of time  
Beyond the end of time  
Beyond the end of time  
Beyond the end of time  
Beyond the end of time
