

# Blindfold

U.D.O.

Our world is changing  
Nothing seems the same  
Sad, empty faces  
And all have no name

No one cares that we're so lonely  
No one sees when someone cries  
No more reasons to remember  
Life's a blindfold on our eyes

Who's the last defender  
To save us from the night?  
The last defender  
To guide us to the light

Our ship is sailing  
Running out of time  
That new horizon  
No more to define

No one cares that we're so lonely  
No one sees when someone cries  
No more reasons to remember  
Life's a blindfold on our eyes

Who's the last defender  
To save us from the night?  
Save us from the night  
The last defender  
To guide us to the light

Tell me why we're all so lonely  
No one sees when someone cries  
Find the reasons to remember  
Tear that blindfold from our eyes

Who's the last defender  
To save us from the night?  
Save us from the night  
The last defender  
To guide us to the light

Who's the last defender  
To save us from the night?  
The last defender  
To guide us to the light
