

Dead Man's Hand

U.D.O.

You live your fairytale
But it is gonna fail
Face to face

When all the stakes fly high
There's no way to deny
Your disgrace

So now you're falling again
And you feel the pressure rising again
And you got no place to hide
Falling shakes your pride

So now you're falling again
And you feel the tension rising again
And it's fun to watch you slide
Let's enjoy the ride

It's a dead man's hand - the final stand
With a hope sky-high - a lullaby
It's a dead man's hand - the last command
And awaiting hell - sounding the bell

Get ready for the pain
You're losing every game
No romance

The devil celebrates
The aces and the eights
Not a chance

So now you're falling again
And you feel the pressure rising again
And you got no place to hide
Falling shakes your pride

So now you're falling again
And you feel the tension rising again
And it's fun to watch you slide
Let's enjoy the ride

It's a dead man's hand - the final stand
With a hope sky-high - a lullaby
It's a dead man's hand - the last command
And awaiting hell - sounding the bell

It's a dead man's hand - the final stand
With a hope sky-high - a lullaby
It's a dead man's hand - the last command
And awaiting hell - sounding the bell

It's a dead man's hand - the final stand
With a hope sky-high - a lullaby
It's a dead man's hand - the last command
And awaiting hell - sounding the bell
