

Empty Eyes

U.D.O.

Humanity of blindness
Overcoming me
Has become a nightmare
And my darkest fantasy
Like some evil creature
Rotting down in hell
Spreading a disease of pain
Like a deathly knell

Craving for a better side of me
Going places I don't wanna be

Evil empty eyes
Feel my cold inside
Evil empty eyes

A belly full of crises
Spins the bottle round
Everyone against the law
The way that we are bound
Bring light into the darkness
Set the spirit free
The evilness surrounding us
Destroyed by harmony

Craving for a better side of me
Going places I don't wanna be

Evil empty eyes
Feel my cold inside
Evil empty eyes
Evil empty eyes
Feel my cold inside
Evil empty eyes

Craving for a better side of me
Going places I don't wanna be

Evil empty eyes
Feel my cold inside
Evil empty eyes
Evil empty eyes
Good and bad collide
Evil empty eyes

Evil empty eyes
Feel my cold inside
Evil empty eyes
Evil empty eyes
Good and bad collide
Evil empty eyes
