

Fear Detector

U.D.O.

It came over night
A void of emptiness, my fear was running high
I just can't deny
I'm standing on the edge, behold the blinding light

I'm on the run to overcome my pain
My shattered brain will never be the same

Feels like a fear detector
Crawling through my mind
Fear detector
Stuck behind my eyes
Feels like a fear detector
Crawling through my mind
Fear detector
Running from your lies

Time for fight or flight
This mad insomnia turns daylight into night
Help me save my life
Help me to break free, help me see the light

I'm on the run to overcome my pain
My shattered brain will never be the same

Feels like a fear detector
Crawling through my mind
Fear detector
Stuck behind my eyes
Feels like a fear detector
Crawling through my mind
Fear detector
Running from your lies

Feels like a fear detector
Crawling through my mind
Fear detector
Stuck behind my eyes
Feels like a fear detector
Crawling through my mind
Fear detector
Running from your lies
