

Future Is the Reason Why

U.D.O.

There is a cloud on the horizon
Dark and grey
Another sign of bad pollution
Shadows falling day by day
The threat is real - it ain't no fiction
Stay not sway
Another day of false addiction
Ghosts of darkness here to stay

Reaching out to find a way
A vision out of sight
Set the fire - feed the flame

Gonna get high (high) fly (fly) come together
Chasing diamonds in the sky
Gonna get high (high) fly (fly) fight forever
Future is the reason why

The trash we face will stay forever
High and dry
And no way out - escape the danger
Hear the dying angels cry
We gotta form a new battalion
Eye to eye
We better rise to live forever
Stop the lying - do or die

Reaching out to find a way
A vision out of sight
Set the fire - feed the flame

Gonna get high (high) fly (fly) come together
Chasing diamonds in the sky
Gonna get high (high) fly (fly) fight forever
Future is the reason why

Gonna get high (high) fly (fly) come together
Chasing diamonds in the sky
Gonna get high (high) fly (fly) fight forever
Future is the reason why
Gonna get high (high) fly (fly) come together
Chasing diamonds in the sky
Gonna get high (high) fly (fly) fight forever
Future is the reason why
