Late at night in the park I saw them slipping in the dark For heaven's sake what's going on It's like someone is here Gotta follow now Like being in a trance for me There's silence here More than all the noise Spurting in the dark head over heels Overheated heart head over heels Treating it so hard the spurting feels Everyday, everynight Spurting in the dark head over heels Overheated heart head over heels Treating it so hard the spurting feels Oh yeah Down on my knees, God help me please Gotta know who's out in the dark I've stopped my breath, can feel the hands Could hear the sound of people making love I surrender right now I've to be touched, I feel so much Spurting in the dark head over heels Overheated heart head over heels Treating it so hard the spurting feels Everyday, everynight Spurting in the dark head over heels Overheated heart head over heels Treating it so hard the spurting feels Everyday, everynight Spurting in the dark head over heels Overheated heart head over heels Treating it so hard the spurting feels Everyday, everynight Spurting in the dark head over heels
