

# Hellbreaker

U.D.O.

You call on darkness evil  
A grin upon your face  
In Lucifer's cathedral  
A feast is taking place

Souls are crying  
Grace is dying  
Sins have paved the road to hell

He will take up the fight  
In the dead of night  
He's a guardian of light  
Hellbreaker

He is breaking the chains  
Only hope remains  
Where the dark fire reigns  
Hellbreaker

You call them all to follow  
Believe your circus act  
They step into the hollow  
There'll be no turning back

No untying  
Horrifying  
Lies have paved the road to hell

He will take up the fight  
In the dead of night  
He's a guardian of light  
Hellbreaker

He is breaking the chains  
Only hope remains  
Where the dark fire reigns  
Hellbreaker

You call on darkness evil  
A grin upon your face  
In Lucifer's cathedral  
A feast is taking place

Exposure is your weakness  
To keep the lie alive  
The web of all the secrets  
Your secret to survive

Souls are crying  
Grace is dying  
Sins have paved the road to hell

He will take up the fight  
In the dead of night  
He's a guardian of light  
Hellbreaker

He is breaking the chains  
Only hope remains  
Where the dark fire reigns  
Hellbreaker

He will take up the fight  
He will take up the fight  
In the dead of night  
The guardian of light  
He's a guardian of light  
Hellbreaker

He is breaking the chains  
He is breaking the chains  
Only hope remains  
The dark fire reigns  
Where the dark fire reigns  
Hellbreaker
