

Like a Beast

U.D.O.

Hello
Hello, who's calling
I'm right behind you
Hello, I can't hear you
I'm right behind you
Hello, who's there
Hahaha

Always try to point your mind into the right direction
An endless fight to get it right just chasing my reflection

Never let your popularity change your path of life
You can choose your mentality and satisfy your pride

Like a beast
Creeping around in the shadows
Like a beast
Always creeping around

No need to hide, no need to fight to find the right reaction
Hold on tight, use your might, you are your own protection

Never let your popularity change your path of life
You can choose your mentality and satisfy your pride

Like a beast
Creeping around in the shadows
Like a beast
Evil eyes in the darkness
Like a beast
They mirror unholy justice
Like a beast
Always creeping around

Never let your popularity change your path of life
You can choose your mentality and satisfy your pride

Like a beast
Creeping around in the shadows
Like a beast
Evil eyes in the darkness
Like a beast
They mirror unholy justice
Like a beast
Always creeping around
