

Living On a Frontline

U.D.O.

Bad days are coming
Back into my head
They're looking for trouble, is that alright
You know you've seen them before
And now they're turning
Into the deepest nights
Shadows on the wall - don't surrender at all
You're not alone this time
Do or die - you'll always be on the run
Like a soldier in time - rain or shine
Aces high - you'd better be on the ball
Don't move outta the way - stand for what you've gotta
say
We're living on a frontline
Always trying not to go
We're living on a frontline
It's much more than enough this time
We're living on a frontline
Now you start searching
For a better life
Better not look back - go straight ahead
Just be yourself all the time
Do or die - you'll always be on the run
Like a soldier in time - rain or shine
Aces high - you'd better be on the ball
Don't move outta the way - stand for what you've gotta
say
We're living on a frontline
Always trying not to go
We're living on a frontline
It's much more than enough this time
We're living - living on a frontline
Always trying not to go
We're living on a frontline
It's much - it's much too much this time
Go ahead this time
Ah, we're living on a frontline
Ah, it's a bad game
I've told you before
So stay away from the frontline
And your friends next door
You say you're lonely
But I don't want them no more
But one day - you're gonna see
They're gonna disappear
We're living on a frontline
Always trying not to go
We're living on a frontline
It's much more than enough this time
We're living - living on the frontline
Always trying not to go
We're living on a frontline
It's much - it's much too much this time
On a frontline
