

Make the Move

U.D.O.

I'm sick and tired of being mister nice guy
No more bloody games no fooling around
I am like a rock and rolling forever
I'm what I am stop being a clown

Don't hide it
Don't fight it
I'm gonna turn it on
I'm burning
No turning
I give it all

I make the move
Just make it right
I make the move
I reach the sky

I don't give a damn about mister no one
I'm not gonna change stop dragging me down
Sinners take it all no time for losers
Right between the eyes still loud and proud

Don't hide it
Don't fight it
I'm gonna turn it on
I'm burning
No turning
I give it all

I make the move
Just make it right
I make the move
I reach the sky

I make the move
Just make it right
I make the move
I reach the sky

So you wanna be a bad boy
Ha ha ha ha
Just look at me

I make the move
Just make it right
I make the move
I reach the sky

I make the move
Just make it right
I make the move
I reach the sky
