

Manhunt

U.D.O.

We're straining at the leash
We smell the human meat
The only way for us to go
The order of the pack
Command is kill - attack
Obey the master's law
Bad temper rules our minds
The hunt is on this time
We can't wait
No way to stay alive
The prey is finalised
It's total genocide
We're on the manhunt - we keep on pushing
We're on the manhunt
We're on the manhunt - we keep on pushing
We're on the manhunt
We train our deadly pride
No way for man to hide
We're always aiming for your neck
This is your final day
Just believe and pray
We're feasting on your eyes
We're on the manhunt - we keep on pushing
We're on the manhunt
We're on the manhunt - we keep on pushing
We're on the manhunt - this ain't no suicide
What is the victim's face - not us who's wrong
The terror of the chase - can't be undone
We turned the game around - not us who's wrong
You made us go to ground - can't be undone
We're on the manhunt - we keep on pushing
We're on the manhunt - this ain't no suicide
We're on the manhunt - we keep on pushing
We're on the manhunt - try to hide - no way to run
