

# Pandemonium

U.D.O.

We take too much for granted  
Keep wasting what we've got  
Soon we'll be empty handed  
Our world a parking lot  
We live in golden towers  
Worship the cloud and "I"  
Select elected power

There's lightning, pain and thunder  
And shockwaves in the air  
We're never going under  
Invade the lion's lair

Turning commercials into war  
Is it hell we're longing for  
Guiding all mankind into doom  
Fighting for Pandemonium

Pandemonium  
Pandemonium  
Pandemonium  
Pandemonium

The comrades of the devil  
Will feast on a dragon's heart  
The council of the evils  
Will shake our world apart

Turning commercials into war  
Is it hell we're longing for  
Guiding all mankind into doom  
Fighting for Pandemonium

Pandemonium  
Pandemonium  
Pandemonium  
Pandemonium  
Pan - demonium  
Hah - aah  
Pan - demonium  
Hah - oh Pandemonium

Turning commercials into war  
Is it hell we're longing for  
Guiding all mankind into doom  
Fighting for Pandemonium

Pandemonium  
Pandemonium  
Pandemonium  
Fighting for Pandemonium  
Pandemonium  
Pandemonium  
Pandemonium
