

Raise the Game

U.D.O.

When the eyes are all deceiving
We have to fight this time
There's a voice inside I'm hearing
Gonna have to hold the line

Like a chain reaction
Like a cyber crime
A mental resurrection
A body for a dime

No more fear - No more tears

Raise the game
Never take the blame
Go on raise the game
No more pain and gain

When the blood inside is freezing
And the heart is icy cold
And the steel begins - bleeding
And the ground is full with bones

In a new tomorrow
Human kind is dead
You will hear the siren
This is the final end!

No way out - scream and shout
High and dry - silent cry
No more lies - pay the price
