

Rising High

U.D.O.

Rising from the ashes, spinning like a wheel
Louder than a screamer, turning back the sea
Rolling like a thunder, crashing all the rules
Never going under, don't take me for a fool

All of my life - and all of my dreams
Not fooling myself anymore
All of my way - now I'm here to stay
I'm ruling - not closing the door

Rising high!
Rising high! (All of my life)
Rising high!
Rising high!

Coming out of nowhere, I've been lost and found
Like an excavator ripping up the ground
Breaking out for freedom, flying through the sky
Giving you a reason to raise your hands up high

All of my life - and all of my dreams
Not fooling myself anymore
All of my way - now I'm here to stay
I'm ruling - not closing the door

Rising high!
Rising high! (All of my life)
Rising high!
Rising high!

Rising high!
Rising high! (All of my life)
Rising high!
Rising high!

Rising high!
Rising high! (All of my life)
Rising high!
Rising high!
