

## Streets on Fire

U.D.O.

Standin' in the night, I don't know just somewhere  
And I'm feeling cold inside about what I see  
Give 'em all guns, there's nothin' left- for losers  
Time is running out so secretly  
This ain't no paradise  
The nightmare's on it's way  
Insanity appears- in their eyes  
Streets on fire- ready or not  
Will the goodtimes return- no way!  
Streets on fire- ready or not  
Will we ever learn- no way!  
Echoing sounds of thunder make me shiver  
Battlefields turn to wasteland- no one wins  
The ghost of terror creeping, through the cities  
And someone says it's a holy war  
This ain't no paradise...  
Streets on fire- ready or not...  
[SOLO]  
Humans will always fight  
The same shit everywhere  
East or west, the same desires  
Will always haunt the earth  
[SOLO]  
Streets on fire- ready or not...
