

The Law Of A Madman

U.D.O.

Everything we take for granted
Everything's turned upside down
Left with no past and no future
And lunatics wearing the crown

Roaming around, yet no place to be found
Losing the world of creation
Longing for space in a world of disgrace
Pounding my fist on the ground

Razing the law of a madman
Cursed with the fate of a sad man
Ending the reign of damnation
Breaking the madness of life
The madness of life

All we held sacred and holy
Dismantled and shattered and dead
Exposing all promises phony
The virus is spreading ahead

Spreading the call for a system to fall
Pain of the road to salvation
Turning our fate long before it's too late
Keeping resistance alive

Razing the law of a madman
Cursed with the fate of a sad man
Ending the reign of damnation
Breaking the madness of life

Roaming around yet no place to be found
Losing the world of creation
Longing for space in a world of disgrace
Pounding my fist on the ground

Razing the law of a madman
Cursed with the fate of a sad man
Ending the reign of damnation
Breaking the madness of life

Oh, razing the law
Razing the law of a madman
Of a madman
Cursed with the fate of a sad man
Of a sad man
Ending the reign of damnation
Of damnation
Breaking the madness of life
The madness of life
