

Thunder Road

U.D.O.

Light it up - ready, aim, fire
The word is out, pressure's getting higher
Down the blazing trail with weapons made of steel
The rage is here for real to destroy that turning wheel

Ride out, wipe out
Black out, step out
Unstoppable regime

This is war
Chaos running wild
Hear those engines roar
Victory on the thunder road
This is war
Future's on the line
See the bodies burn
Victory on the thunder road

Lights are out, fall into submission
Cry for help, heading for rescission
Taking all away, your pride and all your rights
Fading destiny for those who lost the fight

Ride out, wipe out
Black out, step out
Unstoppable regime

This is war
Chaos running wild
Hear those engines roar
Victory on the thunder road
This is war
Future's on the line
See the bodies burn
Victory on the thunder road

This is war
Chaos running wild
Hear those engines roar
Victory on the thunder road
This is war
Future's on the line
See the bodies burn
Victory on the thunder road
