Miles from home So many things go 'round So far - the fight in me so strong Years of pain I've suffered all the same Today - I know I will be near You talk about romance You blew your only chance 'cause you're a two faced woman But I'm a three faced man 'cause you're a two faced woman I got a hangman's hand Dirty tricks I found out just in time Enough - don't dare to cross the line You - you fooled around I found a way out The tables turned - your bridges burned You talk about romance You blew your only chance 'cause you're a two faced woman But I'm a three faced man 'cause you're a two faced woman I got a hangman's hand 'cause you're a two faced woman But I'm a three faced man 'cause you're a two faced woman You'll live in nightmare land Payback time - spin the dime The balance overdue Payback time - take a hike You broke the golden rule 'cause you're a two faced woman But I'm a three faced man 'cause you're a two faced woman I got a hangman's hand 'cause you're a two faced woman But I'm a three faced man 'cause you're a two faced woman You'll live in nightmare land
