

Way Of Life (Re)

U.D.O.

I've been away from home
Was out of sight
No other change has come
Who let the boredom in

We got our rocking rights, ha
We'll overcome
The mirror never lies
We'll show 'em how it's done

We always dress in black to be unkind
We always dress in black with you in mind

It's the way of life we live
You know where we are coming from
It's the way of life we live in
We are the strong

We will never deceive
Take no double-talk
And all the fat cats bull
Don't like the way we walk

They spit behind our backs
Unwelcomed class
But it's way down deep
They wanna be like us

We always dress in black to be unkind
We always dress in black with you in mind

It's the way of life we live
You know where we are coming from
It's the way of life we live in
And we are the throng
It's the way of life we live
You know where we are coming from
It's the way of life we live in
We are the strong

We always dress in black to be unkind
We always dress in black with you in mind

It's the way of life we live
You know where we are coming from
It's the way of life we live in
And we are the throng
It's the way of life we live
You know where we are coming from
It's the way of life we live in
We are the strong
