

# Love You Like Mad

U2

Nothing worth taking so I never really took  
Nothing was shaking but baby you really shook  
No one was waking until you kept me up  
If your heart was breaking you know I won't see you stuck

The pain never felt so good  
To feel so bad

I love you  
I love you like mad  
I love you  
I love you like mad

No one worth knowing has ever known a thing  
No one who knew how could ever teach the world to sing  
You are the only one I've ever listened to  
So don't wait for me to ask tell me what to do

The pain never felt so good  
To feel so bad

I love you  
I love you like mad  
Love you  
I love you like mad  
I Love  
I Love you like mad

Don't worry baby if you're in the spotlight  
I'll do the maximum time for you tonight  
You know that we're not crazy  
Well maybe just a touch  
Some sweet delight usher you rush  
And some gets us close too much

I love you  
I love you like mad  
Love you  
I love you like mad  
Love you  
Love you like mad  
Love you  
Love you like mad

Hey hey  
Love you love you like mad  
Love you love you like mad  
Love you love you like mad  
Love you love you like mad  
Love you love you like mad
