

Lost Paradise

U96

See all the places that come and go
Before my very eyes
See all the memories of good and bad
A blessing in disguise
Oh, babe

Living fascination
No hallucination
A sight for sore eyes

Here's a place of fiction
Sequel of addiction
A lost paradise

Take me when I'm lonely
Be my one and only
Don't wave goodbye

When my heart is burning
Memories returning
A lost paradise

Whooooo whoo whoo whooo
Whooooo whoo whoo whooo

See all the places that come and go
Before my very eyes
See all the memories of good and bad
A blessing in disguise
Oh, babe

I don't wanna lose you

Everybody's changing
Call it rearranging
Say: such is life

I don't wanna lose you
Don't want to minuse you
Lost paradise

Take me when I'm lonely
Be my one and only
Don't wave goodbye

When my heart is burning
Memories returning
A lost paradise

Living fascination
No hallucination
A sight for sore eyes

Here's a place of fiction
Sequel of addiction
A lost paradise

Take me when I'm lonely
Be my one and only
Don't wave goodbye

When my heart is burning
