Whatever race, colour or creed
We all share the same dream to succeed
If you have the power and the speed
With the will to lead
You can be the number one
Champion

Higher, faster, further, stronger
Bigger, better deeper, longer
If you've taken on the best
And you've risen to the test
You can be the number one
Champion

It's from the moment you rise
To when you step on that starting line
Just one thought passes through your mind:
"Today is gonna be all mine"

It's not about win or lose
To always better yourself is the path you choose
Put one foot forward and do
Whatever you were meant to

Higher, faster, further, stronger
Bigger, better, deeper, longer
If you've taken on the best
And you've risen to the test
You could be the number one
Champion
