

## Everytime

UB40

In a little while  
I'll be on my way  
Got no words to express  
What I need to say

R: Every time I think about the first time  
We said hello  
You know when you know  
You never let go

It's just not my style  
Something I can't do  
After all this time  
I'm scared of losing you

R:

Is there anything  
You could let me know  
Surely you could find me  
A reason not to go

R:

After everything  
We've been going through  
I'm so up and down  
So dizzy and blue

R:

Let me one more time  
Look into your eyes  
I remember when  
There were no goodbyes

R:
