

## Holiday

UB40

Every day is just a holiday  
I don't care what the crowd may say  
I live the life I love, with you  
Having fun while you were feeling blue

Every day is just another day  
I do things the same old way  
I swing and dine, I joke a while, play a while  
'Cause every day is just a holiday

Every day is just a holiday  
I don't care what the crowd may say  
I live the life I love, with you  
Having fun while you were feeling blue

Every day is just another day  
I do things the same old way  
I swing and dine, I joke a while, play a while  
'Cause every day is just a holiday

Every day is just a holiday  
I don't care what the crowd may say  
I live the life I love, with you  
Having fun while you were feeling blue

Every day is just another day  
I do things the same old way  
I swing and dine, I joke a while, play a while  
'Cause every day is just a holiday
