

Trouble

UB40

It always goes the same way
Phone call in the early AM
You've been in town with your friends
Now they've gone you don't want the night to end, yeah

If you're alone why don't I come over?
We always have so much fun don't we?
I'll take the weight of the day off your shoulders
Don't lie, I know you've been missing me, yeah

It gets harder every time
You fall back into my life
I wish I'd read the warning signs
'Cause darling you mean trouble
It gets harder every time
You fall back into my life
I wish I'd read the warning signs
'Cause darling you mean trouble to me

I know you find it tough babe
I won't be one to judge babe
You don't owe no one nothing
Always willing to give something away

If you're alone why don't I come over?
We always have so much fun, don't we?
I'll take the weight of the day off your shoulders
Don't lie, I know you've been missing me

It gets harder every time
You fall back into my life
I wish I'd read the warning signs
'Cause darling you mean trouble
It gets harder every time
You fall back into my life
I wish I'd read the warning signs
'Cause darling you mean trouble to me

Since you come in my life
Gave you a trouble and strife
Feel like me under the knife
Look how my fitness hype
Look how you tight and trim
Treat me like me a gym
But I never complain
Come to my yard and train
I will always maintain
You always blow my brain
Never no Bang-a-rang
We can do this all night long
Look how you cute and tan
When you call me Mr Man
Live it live it up on the double
Baby girl you a trouble

It gets harder every time
You fall back into my life

I wish I'd read the warning signs
'Cause darling you mean trouble
It gets harder every time
You fall back into my life
I wish I'd read the warning signs
'Cause darling you mean trouble

It gets harder every time
You fall back into my life
I wish I'd read the warning signs
'Cause darling you mean trouble
It gets harder every time
You fall back into my life
I wish I'd read the warning signs
'Cause darling you mean trouble
