

# Nepal

## Ubiquitous Synergy Seeker

On this slip trip, tryin' to get a grip  
From my brain I rip  
Government microchip  
Here I am, I don't understand why  
Fusion of illusion equals infinite confusion but

We're all the same blood  
Building the same frame  
Stuck in the same mud  
Cheatin' at the same game  
We're all the same nerve  
Feeling the same pain  
Stuck in the same curve  
Rushing through the same vein

When I was higher than Nepal  
I must have been peakin'  
When you were bangin' on the wall  
I must have been sleepin'  
Old pain go now  
Out of my head  
This place is lower than a crawl  
I must have been seekin'

On this bleak streak  
Calibrate and tweak  
Shifty shadows sneak  
Formaldehyde and seek  
Neuropeptide  
Systems over-ride  
Faith is multiplied, quantified  
Trust angel mechanic guides

We're all the same blood  
Building the same frame  
Stuck in the same mud  
Cheatin' at the same game  
We're all the same nerve  
Feeling the same pain  
Stuck in the same curve  
Rushing through the same vein

When I was higher than Nepal  
I must have been peakin'  
When you were bangin' on the wall  
I must have been sleepin'  
Old pain go now  
Out of my head  
This place is lower than a crawl  
I must have been seekin'  
I must have been seekin'

Old pain go now  
Old pain go now  
If love's the apex of our religions  
Then why do we kill each other  
Like hungry pigeons, brother?

This socialistic battle  
White collar bred cattle  
Greed riding horseback  
Morals riding side saddle

When I was higher than Nepal  
I must have been peakin'  
When you were bangin' on the wall  
I must have been sleepin'  
Old pain go now  
Out of my head  
This place is lower than a crawl  
I must have been seekin'  
I must have been seekin'  
I must have been seekin'
