

Us

Ubiquitous Synergy Seeker

If I could rewind time and make amends
If I could somehow hear your voice again
And hold you gently in the morning

What I wouldn't give
What I wouldn't give
What I wouldn't give
What I wouldn't give

Say the word and I will
Turn around and run, run, run to you
Say the word and I will
Turn around and run, run, run to you

Oh, just to feel your breath against my skin
If I could somehow taste your smile again

What I wouldn't give
What I wouldn't give
What I wouldn't give
What I wouldn't give

Say the word and I will
Turn around and run, run, run to you
Say the word and I will
Turn around and run, run, run to you
I try to pry my heart away
It's true, your love is crazy glue
So say the word and I will
Turn around and run, run, run to you

What I wouldn't give
What I wouldn't give
To be us
Us again
To be us
Us again

Say the word and I will
Turn around and run, run, run to you
Say the word and I will
Turn around and run, run, run to you
I try to pry my heart away
It's true, your love is crazy glue
So say the word and I will
Turn around and run, run, run to you

What I wouldn't give
What I wouldn't give
To be us
Us again
To be us
Us again
To be us
