

Vulcan

Ubiquitous Synergy Seeker

I know, I know I've been a fool and
I know, I know I've been cruel
You know, you know I'm no Vulcan
You know I got feelings too

So now
There's nothing left to resist
There's nothing left to admit
There's nothing left to deny, deny
There's nothing left to explain
There's nothing left to retain
There's nothing left to divide, divide

I know, I know I've been distant
I know what I've put you through
You know, you know you're an angel
You know, you know we'll get through

So now
There's nothing left to resist
There's nothing left to admit
There's nothing left to deny, deny
There's nothing left to explain
There's nothing left to retain
There's nothing left to divide, divide
