

## Who's With Me

## Ubiquitous Synergy Seeker

Something's happening here  
Horizon's wide, we break out from the tribe  
Something's happening here  
The time's arrived

I didn't come to waste no time  
No, no  
I didn't come to waste no time  
No, no  
Something's happening here  
Horizon's wide  
Who's with me, with me

Don't try to paint my rainbow grey  
I'm feeling fine, fine, fine  
We're gonna nail this shut today  
It's about time  
Al-al-al-alright  
Who's with me, with me  
Sparks scream out "unite"  
Who's with me, with me  
Don't try to paint my rainbow grey  
I'm feeling fine

Who's with me, with me

Something's happening here  
A diamond mine  
We're extracting the shine  
Something's happening here  
It's super fly  
(It's super, super super fly)

I didn't come to waste no time  
No, no  
I didn't come to waste no time  
No, no  
Something's happening here  
A diamond mine  
Who's with me, with me

Don't try to paint my rainbow grey  
I'm feeling fine, fine, fine  
We're gonna nail this shut today  
It's about time  
Al-al-al-alright  
Who's with me, with me  
Sparks scream out "unite"  
Who's with me, with me  
Don't try to paint my rainbow grey  
I'm feeling fine

Who's with me, with me

Al-al-al-alright  
Who's with me, with me  
Sparks scream out "unite"

We're freaking, freaking out, out, out of our minds  
Who's with me, with me  
Who's with me, with me  
Al-al-al-alright  
Who's with me, with me  
Sparks scream out "unite"  
We're freaking, freaking out, out, out of our minds  
Who's with me, with me  
Who's with me, with me  
Who's with me, with me

Don't try to paint my rainbow grey  
I'm feeling fine, fine, fine  
We're gonna nail this shut today  
It's about time  
Al-al-al-alright  
Who's with me, with me  
Sparks scream out "unite"  
Who's with me, with me  
Don't try to paint my rainbow grey  
I'm feeling fine

Who's with me, with me

Who's with me, with me  
Who's with me, with me  
Who's with me, with me
