

prickling skin

Uffie

Keep on fallin' down on my knees
Stalkin' my emotions like they're enemies
World keeps gettin' ahead of me
Everything I do, I do it for the peace

If you can live without her, we can go somewhere
I can't live without you, please tell me you care

Love me like a toxin seepin' in my prickling skin
Don't you ever let it stop
Don't you ever let it stop
Chemical reactions burn, but I still pick us all up
Don't you ever let it stop
Don't you ever let it stop

Love me like a toxin
Love me like a toxin
Love me like a toxin
Don't you ever let it stop

Wake up early to steal your jeans
How come we keep acting like we're seventeen?
Dress my nails up in Paris green
Meet me by the automatic cash machine

If you can live without her, we can go somewhere
I can't live without you, please tell me you care

Love me like a toxin seepin' in my prickling skin
Don't you ever let it stop
Don't you ever let it stop
Chemical reactions burn, but I still pick us all up
Don't you ever let it stop
Don't you ever let it stop

Love me like a toxin
Love me like a toxin
Love me like a toxin

If you can live without her, we can go somewhere
I can't live without you, please tell me you care
If you can live without her, we can go somewhere
I can't live without you, please tell me you care

Love me like a toxin seepin' in my prickling skin
Don't you ever let it stop
Don't you ever let it stop
Chemical reactions burn, but I still pick us all up
Don't you ever let it stop
Don't you ever let it stop
Love me like a toxin seepin' in my prickling skin
Don't you ever let it stop
Don't you ever let it stop
