Cowboy Joe

UFO

Im not looking to change your mind,
There's a place, call it home
Its no secret, the world unwinds
Maybe now you're not alone
Its just another day
In the life of cowboy joe
Straitlaced to the bone
(this story will not play?)
You take the wheel and play the chance
Suddenly the rooms divided
As in the way of true romance
Its always undecided
Its just another day
In the life of cowboy joe
Shipwrecked to the bay
(this story will not play?)
Every time he climbs back up
Smacked down with a dime
Its evens or odds now
Just ran out of time
(instrumental)
Loves a struggle, there's a fight
No bone of contention
So unhappy, well heres the bite
That's the mother of invention
Its just another day
In the life of cowboy joe
Strange place to play
Its just another day
In the life of cowboy joe
