

It's Killing Me

UFO

Living inside a bottle
Strung out on a line
Caught in life's rough and tumble
Blind leading the blind
I wish there was an answer
But she's got such an easy way
And you know you can't leave her
And you know you can stay

Oh it's killing me
Oh, love's a mystery
Oh, it's killing me
Oh, love's a mystery

We're hiding from the small talk
And hiding all the pain
With our backs against the wall
Is all this love in vain

Oh it's killing me
Oh, love's a mystery
Oh, it's killing me
Oh, love's a mystery

When I'm with you you know I try so hard
Not to love you but I keep up my guard
Every single day that goes by
Are we fooling ourselves living a lie

Please tell me now it's no secret
Is there surrender with defeat
Do you let love pass you by
Walk to a different beat

Oh it's killing me
Oh, love's a mystery
Oh, it's killing me
Oh, love's a mystery
