

Lettin' Go

UFO

I'm lettin' go now
Don 't think I can last
I'm lettin' go now
I've been living too fast

I'm not up in the morning
And beat the clock at night
It's got so damn predictable
Feel I'm doing time

Oh no I can't stand another day
I see those closing
Caught in the ricochet
Oh no my life's in miniature
I'll be here forever
How much more can a poor boy take
When all he needs is an even break

I'm lettin' go now
Work is driving me crazy
Lettin' go now
Take a lot save me

Started when I was sixteen
It's been just like a drug
I'm working every day
You'd think I was in love

Oh no I can't stand another day
I see those closing
Caught in the ricochet
Oh no my life's in miniature
I'll be here forever
How much more can a poor boy take
When all he needs is an even break

I'm lettin' go now
Don 't think I can last
I'm lettin' go now
I've been living too fast
