

Queen of the Deep

UFO

Heaven knows why I'm left here in this place
With the sun up in my eyes
Symbols of the morning coming on
With the love that's got too strong to hold
If I'd been so much wiser then
I would have known which path to choose
Heaven help the lucky ones
Heaven help you
Heard the news come on the radio
About the loves in this escapade
I'd already heard before
Baby, two years ago
Say it's too hard just return
Now it seemed just like a dream
I saw and already seen it
On my TV's screen
Now I could see all these conflicts goin' on
Don't you think you could show some thanks
I just might give you a standin' ovation
When I'm here and gone
