

## Blues

**UK Subs**

The more I try, the harder it gets with you  
Up day and night and day but I still don't have a clue

I need another blue (3x)  
To get through to you

If someone told me that you'd be here  
I die of fright or freeze in fear

I need another blue (3x)  
To get through to you

When I come down to your side of town  
I always get a buzz just knowing you're around

I need another blue (3x)  
Oh
