

I Robot

UK Subs

Got a silicone brain (I, robot)
On a metal frame (I, robot)
Ain't got no name (I, robot)
And every last one looks the same

He's got X-ray eyes (I, robot)
He won't tell no lies (I, robot)
He never cries (I, robot)
He don't live and he won't die

He wants your blue planet for a base
He thinks he is the future of a super human race

But he's got no heart (I, robot)
To tear apart (I, robot)
He ain't got no veins (I, robot)
Just the mind of a billion brains

He's the brave new world (I, robot)
For the boys and girls (I, robot)
He's gonna make you rich (I, robot)
Gonna make you jump and make you twitch

He wants your blue planet for a base
He thinks he is the future of a super human race

He's got no heart (I, robot)
To tear apart (I, robot)
He ain't got no veins (I, robot)
Just the mind of a billion brains

He's got X-ray eyes (I, robot)
He won't tell no lies (I, robot)
He never cries (I, robot)
He don't live and he won't die
