Gunned down in the city

[?]

Next thing is you're running

And the killer's after you

He maybe watching you

But you're out having fun

But what's he's trying to do

Is get a bite on everyone

The copper is a killer

They've given him a gun

Copper is a killer

And he's killing everyone

It don't matter who's side you're on

The killer's gonna gun you down

The killer's never wrong

Copper is a killer

No matter what you say

Put him in a uniform

He'll put you in a grave

The copper is a killer

Given him a gun

The copper is a killer

And he's killing everyone
