

Killing Time

UK Subs

There's a gun in the house, a gun in the house
Your head's on the firing line
There's a gun in the house, a gun in the house
Waiting for the perfect crime

I know that you've been violated
Your heart's full of hate
You can't take it one more time
Not one more time

There's a gun in the house, a gun in the house
Waiting on you to load
There's a gun in the house, a gun in the house
Just waiting to explode

That gun doesn't feel emotion
No, no, no

There's a gun in the house, a gun in the house
Waiting for the perfect crime
There's a gun in the house, gun in the house
Just killing time
