

Miniaturising side-winding chemical war  
Future nightmare, a planet gone terribly wrong  
Chrome metal, polished plastic, cold clean machine  
Dehumanized emotions, a brave new dream

I am the third world  
The perpetrator of American greed  
If you're an aggressor  
I'll supply you with arms, drugs and disease

Chrome metal, polished plastic, cold clean machine  
Dehumanized emotions, a brave new dream

Staring at the gates of hell  
Military regime  
MPRI, MPRI  
Will break American dream
