

## Before

Ulrik Munther

In the cold, cold night  
Lying next to you almost made it feel alright  
And when we talked hours just flew by  
I told you all, all about my life  
At one point I even cried

It's all in your eyes  
But I still need some time

Before  
We burn each other up  
Before we lose our minds  
Before I'm not enough for you  
Baby I need some time  
Before you break my heart  
Oh before we need to talk  
Before it even starts  
I mean  
I'm sorry I didn't call

I was lost and found  
Like a lonely glove nobody cares about  
But you saw something worth having  
You picked me up, tugged on my heartstrings  
But I'm still cold inside

Maybe we could try  
Somewhere down the line  
But I still need some time

Before  
We burn each other up  
Before we lose our minds  
Before I'm not enough for you  
Oh baby I need some time  
Before you break my heart  
Oh before we need to talk  
Before it even starts  
What I'm saying is  
I'm sorry I didn't call  
Oh I'm sorry I didn't call

I am just a ghost  
Trying to stay alive  
Still I'm holding on  
To another life  
You've heard me howling  
You said let's take it slow  
But I'm still fighting  
I can't seem to let her go  
Though I can see the light  
It only hurts my eyes right now

I don't wanna lie  
I still need some time

Before

We burn each other up  
Before we lose our minds  
Before I'm not enough for you  
Baby I need some time  
Before you break my heart  
Oh before we need to talk  
Before it even starts  
What I'm saying is  
I'm sorry I didn't call  
Oh I'm sorry I didn't call
