

# Come Find Me

Ulrik Munther

Talking to my mother  
I'm the apple from her tree  
Since I rolled out of her garden  
I've been hard for her to reach  
I was looking for adventure  
Thought I had something to prove  
Now I'm desperate for attention  
Oh, someone put me to good use

'Cause I don't know what to do  
Waking up each night  
Around 1 am or 2  
Feeling as though I'm falling  
Waiting for the moment to come  
When I land in your hands

And I don't care what you call it  
It's worth it just to wake up next to you  
I don't wanna stay another night  
Without you by my side  
So won't you try  
Come and find me now

Talking to my father  
I'm the flower from his seed  
Though I grew to be much taller  
I fear he's looking down on me  
I was frightened by the thunder  
So I took my pa' on a walk  
I've been cooped up in my dungeon  
Painting pictures on the walls

But I don't know what is true  
Me, myself and I  
Howling up at the moon  
Hoping somebody answers  
Sheds a little light on our soul  
Understands who I am, you know?

And I don't care what you call it  
It's worth it just to wake up next to you  
I don't wanna stay another night  
Without you by my side  
So won't you try  
Come and find me now

I don't know shit, everything I've ever done has lead me to this  
Am I enough? Where do I fit? Everything I'll ever know is that I exist  
I don't know much, I don't know shit, everything I've ever done has lead me  
to this  
Am I enough? Where do I fit? Everything I'll ever know is that I exist  
I don't know much, I don't know shit, everything I've ever done has lead me  
to this  
Am I enough? Where do I fit? Everything I'll ever know is that I exist  
I don't know much, I don't know shit, everything I've ever done has lead me  
to this  
Am I enough? Where do I fit? Everything I'll ever know is that I exist

And I don't care what you call it (I don't care what you call it)  
It's worth it just to wake up next to you (wake up next to you, ooh hoo)  
I don't wanna stay another night (another night)  
Without you by my side (ooh)  
So won't you try (won't you try)  
Come and find me now

And I don't care what you call it (I don't care what you call it)  
It's worth it just to wake up next to yo (wake up next to you, wake up next  
to you)  
I don't wanna stay another night  
Without you by my side  
So won't you try  
Just come and find me now
