

# Moments Ago

Ulrik Munther

[Verse]

Moments ago  
I couldn't see the sky  
I watched you go  
And now these days go by  
It's moments ago  
If only in my mind  
I've captured them so  
I can control the time

[Bridge]

Well that about does me  
you've taken my heart  
failing me right from the start  
I'm caught between the lines of hello and goodbye  
and my whole horizon is you

[Ref]

And I don't even know if your mind is made up  
If you are where you wanna be  
Don't say no, come on home  
I want to turn around now  
I want to turn around

And find that you're there with the wide world to share  
Held in the palm of your hand  
Don't say no, come on home  
I want to turn around  
I want to turn around... now

[Verse]

Moments ago  
I caught the scent of you  
I closed my eyes  
and let it fill the room  
it's Moments like these  
They fill my memory  
you're there in my mind  
but I want you next to me

[Bridge]

Well that about does me  
you've taken my heart  
failing me right from the start  
I'm caught between the lines of hello and goodbye  
and my whole horizon is you

[Ref]

And I don't even know if your mind is made up  
If you are where you wanna be  
Don't say no, come on home  
I want to turn around now  
I want to turn around

And find that you're there with the wide world to share  
Held in the palm of your hand  
Don't say no, come on home

I want to turn around

I want to turn around... now
