

Shine a Light

Ulrik Munther

Shine a light let's stand together
We can make this world so much better
Yeah, it's dark now, but I can see a brighter day
Shine a light the world will feel it
And in time our wishes will heal it
Shine a light and you will see

I saw a light
In the night sky
It must have been a shooting star
It made me think of you and how I wish we were together
Like a flash of lightning, so bright and exciting
I wish you could have seen
The radio played; give peace a chance
I'd like to think that it's in our hands

Shine a light let's stand together
We can make this world so much better
Yeah, it's dark now, but I can see a brighter day
Shine a light the world will feel it
And in time our wishes will heal it
Shine a light and you will see

I got a card from Wyndham
I didn't know you got that far
I can't believe it
I wish you knew how much I miss you
But the sky above us is the same, and I know that shooting star
It fell for all we love and cherish
Fell for our dreams, so they won't perish

Shine a light let's stand together
We can make this world so much better
Yeah, it's dark now, but I can see a brighter day
Shine a light the world will feel it
And in time our wishes will heal it
Shine a light and you will see

Merry Christmas
And a happy new year
If we take care of each other there's nothing to fear

Shine a light let's stand together
We can make this world so much better
Yeah, it's dark now, but I can see a brighter day
Shine a light the world will feel it
And in time our wishes will heal it
Shine a light and you will see
