

Stay Awake

Ulrik Munther

It's almost 2 o'clock when she whispers in my ear
"I really have to go now, work starts at 8 I fear"
Suddenly I realise it's something that I can't allow
And I drag her back in bed

'Cause I want to get to know you better than I know myself
Share every single feeling I've had since I was 12
Talk about all your interests, your thoughts and your problems
Don't fall asleep quite yet

Wait, stay awake with me my dear
Don't fall asleep my dear, while you're still here
Stay awake

I can hear your watch ticking, lying on your arm
Reminding me of the fact that soon you will be gone
You say you're feeling tired, and I feel you drifting off
I hate it when your eyes close

'Cause I never wanna grow up, I like to play pretend
You and I still got time, this never has to end
Even if just for tonight you call in sick tomorrow
I love you, don't you go

Wait, stay awake with me my dear
Don't fall asleep my dear, while you're still here
Stay awake

Wait, stay awake with me my dear
Don't fall asleep my dear, while you're still here
Stay awake

If you're tired from mind-blowing [?] my love
We can think of all [?] real talk
Just don't leave me now, the sun's about to rise
But we still got time

Wait (stay awake), stay awake with me my dear
Don't fall asleep my dear, while you're still here
Stay awake (stay awake)

Wait (stay awake), stay awake with me
Don't fall asleep my dear, while you're still here
Stay awake (stay awake)

Wait, wait, stay awake with me (stay awake)
Don't fall asleep my dear (stay awake), while you're still here
Stay awake (stay awake)

Stay (stay awake, stay awake, stay awake, stay awake)
(Stay awake, stay awake, stay awake, stay awake)
