Symphony

Ulrik Munther

I was looking for a pot of gold Chasing rainbows, oh oh I saw summer turn to snow I got cold, so cold

And in the morning breeze You came to me

The world is like a symphony
The mountain's like the melody

Singin' nah nah nah Singin' nah nah nah Just for me

Down a long and windy road
I've been walking, on my own
And I've been calling this road my home
Like a fool, I was wrong

In the morning breeze
You came to me
The world is like a symphony
The mountain's like the melody

Singin' nah nah nah Singin' nah nah nah Just for me Just for me

The world is like a symphony
The mountain's like the melody

Singin' nah nah Singin' nah nah nah Just for me, yeah Just for me, yeah

Singin' nah nah nah Nah nah nah Just for me
