Babe, I wanna take you to this place that they don't know
Take you to this place where we can grow
I wanna take you to this place that's made for us, for us
Feel, I'm gonna make you feel like everything is real
You can have a chance to be with me
I'm gonna make you feel like everything's okay, okay

Tell me where you're looking
Tell me who you're looking for
I can take you places
Places you've never been before
Tell me where you're looking
Tell me who you're looking for
I can take you places
Places you've never been before

Ooh... ooh ooh... ooh ooh... ooh ooh...
Places you've never been before
Ooh... ooh ooh... ooh ooh... ooh ooh...

Wait, without me everything you have will break
I can make the ground beneath you shake
Or I can make you feel like everything's okay, okay

Tell me where you're looking
Tell me who you're looking for
I can take you places
Places you've never been before

Ooh... ooh ooh... ooh ooh... ooh ooh...
Places you've never been before
Ooh... ooh ooh... ooh ooh... ooh ooh...

(I can take you places)
I can take you places
Oh... (I can take you places)
I can take you places

Oh... ooh ooh... ooh ooh... ooh ooh...
Places you've never been before
Ooh... ooh ooh... ooh ooh... ooh ooh...

Oh, tell me where you're looking
Tell me who you're looking for
I can take you places
Places you've never been before

Tell me where you're looking
Tell me who you're looking for
I can take you places
Places you've never been before
