

C'est la Vie

Ultimatum

Strange
I thought i had enough
I though i'd seen it all
I thought i'd gained some wisdom and insight
I fool

Blinded by the spotlight
Deaf because of rock rhyme
I failed to trust my eyes
And sirens passed my ears
But it is not too late to shift in

Rise above the mountains
Leave the worries far behind
Hear beyond the rock rhyme
Trust inside and step aside

And free from chain
Once again

C'est la Vie my darling
I can't wait you forever
'cause my flight will be leaving soon
And you are afraid to fly high
C'est la Vie
I'll be heading to the starlit sky
C'est la Vie

Same than always
It goes on and on and on
And i just have to try
On road i've chosen
On my trek

I can throw myself into eye of storm and flames of hell
Metal heart and wings of steel
Rise me to the sky above

And there i fly
Ever more

C'est la Vie my darling
I can't wait you forever
'cause my flight will be leaving soon
And you are afraid to fly high
C'est la Vie
I'll be heading to the starlit sky
C'est la Vie
