

## Descent

## Ultimatum

We are fallen angels from the sky  
Fallen for our sins tonight  
Thrown out of skies to live our life  
Down here in earth

I don't know why he did not understand  
Our little prank we did up high above  
He thinks taht this is suffering to us  
But we are having fun

No more of old man  
No moer of his rules  
No more of hypocritics  
We're destined to descent

We are fallen angels from the sky  
Fallen for our sins tonight  
Thrown out of skies to live our life  
Down here in earth

He did never understand  
We are born to fall from sky  
We want to live our life tonight  
Without the eye that never sleeps

We are fallen angels from the sky

We are fallen angels from the sky  
Fallen for our sins tonight  
Thrown out of skies to live our life  
Down here in earth

He did never understand  
We are born to fall from sky  
We want to live our life tonight  
Without the eye that never sleeps
